27th	Innovative Research in Engineering Sciences Environment, Business Management and Humanities for Sustainable Development New Delhi, India in-person

Indian Youth are keen on other forms of ongoing education, with 76% of youth reporting that they are very interested in participating in a skills development programme. Increased employment opportunities due to good skills are main motivators for this goal.

India must support high-quality education and training opportunities. At present, there is an acute lack of awareness of available government-run skill development programmes. They are also doubtful about their quality and relevance. In order to enhance the uptake of proper programmes, Everence is not just a platform or a company it is smart hub which will display list of all free as well as paid skill development events and all events across the world where youth can easily register and upskill themselves.

HOW ARE WE BETTER THAN OUR COMPETITORS

Some of competitors are Meetup, CFP list, Eventbrite and Eventbee but we have a better UX experience where anyone can just click on any part of world in our map and he will get access to list of events happening in that particular region in just fraction of seconds.

TARGET CUSTOMERS

Our target customers are youths, students of all age groups, schools and universities.
